NIST Cybersecurity Professional (NCSP) Training Curriculum

DxCERTS NIST Cybersecurity Curriculum Consortium

Today, due to the ever-changing threat landscape created by Digital Transformation (DX) programs (IoT, Mobile, Cloud etc.) and a very sophisticated network of threat actors (i.e., the bad guys) enterprises need to build a workforce capable of identifying, protecting, detecting, responding and recovering from cyber-attacks.

DxCERTS is a global consortium of academic, government and industry thought leaders working together to create Digital Transformation (DX) Training Curriculum based on the frameworks, methodologies and technologies outlined in the National Institute of Standards and Technologies (NIST) cybersecurity and risk management frameworks.

DxCERTS focus is to create white label training curriculum and train-the-trainer services that will enable training institutions of all types (K-12, Higher Education, Training Companies & Enterprise Learning & Development) to offer the DxCERTS cybersecurity training curriculum as part of its existing academic and continuing education classroom, virtual, blended learning or self-paced e-learning programs.

DxCERTS NIST Cybersecurity Training Curriculum

The DxCERTS curriculum includes eight career pathway programs that are aligned with the IT and Cybersecurity frameworks being adopted and operationalized by enterprises across the globe.

DxCERTS Curriculum Benefits

Listed below are the eight reasons your training institution should partner with itSM Solutions for its DxCERTS cybersecurity curriculum program.

- DxCERTS was specifically designed to meet the curriculum and student management needs of today’s training organizations (K-12, Higher Ed, Enterprise L&D etc.)
- DxCERTS career pathway programs are aligned with the industry leading IT & Cybersecurity frameworks being operationalized by enterprises across the globe

NIST Cybersecurity Professional (NCSP) Training Curriculum

- DxCERTS flexible licensing model provides enterprises of any size the ability to offer training to all of its IT & NIST Cybersecurity workforce.
- DxCERTS flexible delivery options enable the program to be adapted to any organizational structure and training schedule
- DxCERTS online Student Monitoring, Mentoring & Reporting platform ensures a successful outcome for both the student and employer
- DxCERTS online Train-the Trainer program enables resellers to quickly stand-up its own delivery and mentoring force.
- DxCERTS multi-year licenses enable individuals and enterprises to span the training over degree program years or enterprise budget cycles
- DxCERTS procurement options include Credit Card, Purchase Order, HR Continuing Education Funds, State of Federal Workforce Development Grant Programs

NIST Cybersecurity Professional (NCSP) Training Curriculum

This DxCERTS NIST Cybersecurity Framework (NIST-CSF) curriculum teaches students how to Engineer & Operationalize a cybersecurity program based on the NIST Cybersecurity Framework.

NIST Cybersecurity Professional (NCSP) Training Curriculum

The NIST Cybersecurity Professional (NCSP) training curriculum was created in partnership with UMass Lowell (UML) a NSA/DHS National Center of Academic Excellence in Cyber Defense Research (CAE-R). The curriculum was designed to train the engineering, operations and business teams responsible for operationalizing the NIST Cybersecurity Framework controls (CIS 20 Critical Controls etc.) and management systems (ISO 27001 etc.) across the university five campuses. The NCSP curriculum has since been used to train other universities, governments and private corporations to do the same.

The curriculum accredited by APMG International teaches the knowledge, skills and abilities to:

- Develop a strategy to educate executives and board members about the NIST Cybersecurity Framework and why they should allocate funding to launch and maintain a program
- Create a Cybersecurity program that will become policy for the organization
- Engineer a solution that will span the enterprise and its supply chain
- Build and Operate a Security Operations Center (SOC) to continuously monitor and respond to changes in the documented cybersecurity profile

NIST Cybersecurity Professional (NCSP) Training Curriculum

- Conduct continuous business risk assessments that compares the current profile against the target profile

NIST Cybersecurity Framework Awareness Training

The DxCERTS NIST Cybersecurity Framework awareness training curriculum introduces students to the basic concepts associated with Digital Transformation, the NIST Cybersecurity Framework and Cybersecurity Risk Management.

NIST Cybersecurity Professional (NCSP) Foundation Certification Training

The APMG accredited NCSP Foundation training course outlines current cybersecurity challenges and explains how organizations who implement a NIST-CSF program can mitigate these challenges.

NIST Cybersecurity Professional (NCSP) Practitioner Certification Training

The APMG accredited NCSP Practitioner training course teaches in detail how to engineer, operate and improve the technical and business functions of an NIST-CSF program.

NIST Cybersecurity Professional (NCSP) Boot Camp Certification Training

This APMG accredited combined (Foundation + Practitioner) NCSP program outlines current cybersecurity challenges plus teaches in detail how to

NIST Cybersecurity Professional (NCSP) Training Curriculum

engineer, operate and improve the technical and business functions of a NIST-CSF program.

NIST Cybersecurity Professional Training Curriculum Library

This low cost subscription program, provides students access to the NIST Cybersecurity Professional (NCSP) program plus over 200 additional accredited training programs that will help students prepare for the most sought after certifications in Information Technology (IT) and Information Security. Subscription terms include 12, 24, 36 or 48 months.

Curriculum Consortium Partners

The following companies have come together to provide the operational infrastructure to support the DxCERTS curriculum consortium.

Reseller Partners

itSM Solutions has partnered with academic and private institutions to deliver the DxCERTS assessment and workforce development programs. Inaugural partners include New Horizons Computer Learning Centers, LRS Education Services, University of West Florida, Bryant University, GRC Sphere and Babbage Simmel.

Print and Digital Book Distribution

itSM Solutions has partnered with Arvato Training & Education Services a global eCommerce platform an integrated eReader application which delivers print and digital book versions of the DxCERTS curricula to students

NIST Cybersecurity Professional (NCSP) Training Curriculum

anywhere in the world. Arvato is currently the exclusive delivery partner for Microsoft training and consulting education solutions worldwide.

Platform Partners

itSM Solutions has partnered with leading Assessment, Learning Management and Simulation platform companies to deliver affordable training solutions for today's cyber enterprise. Inaugural partners include Career Academy and CyberSaint.

Authoring Partners

DxCERTS inaugural program NIST Cybersecurity Framework – Controls Factory Model™ (NCSF-CFM), was built in partnership with UMass Lowell (UML) a NSA/DHS National Center of Academic Excellence in Cyber Defense Research (CAE-R). NISTCSF.COM has since formed strategic partnerships with Axelos creator of the ITIL®, RESILIA® and PRINCE2 frameworks & methodologies, ISACA creator of the COBIT framework, The Institute for Digital Transformation creator of the Digital Enterprise Readiness Framework (DERF) and other academic and private industry partners.

Publishing Partners

itSM Solutions is leading the development team to create assessment, remediation, certification and simulation training solutions for today's cyber enterprise

NIST Cybersecurity Professional (NCSP) Training Curriculum

Accreditation Partners

itSM Solutions has partnered with APMG for content accreditation and exam delivery services.

Summary

Three things are certain: first, digital services are now at the center of most businesses; second, business is a moving target, third organizations are under attack from those trying to steal the information companies rely on for daily business operations and revenue.

The itSM Solutions DxCERTS training curriculum and student management system enables enterprises of any size to create a workforce capable of identifying, protecting, detecting, responding and recovering from cyber-attacks.

NIST Cybersecurity Professional (NCSP) Training Curriculum

About itSM Solutions LLC

itSM Solutions LLC is an accredited content publishing company specializing in the creation of assessment, certification and skills training content for Information Technology (IT) and NIST Cybersecurity professionals. itSM's training solutions have been adopted by the who's who of industry including HPE, Microsoft, Disney, Cisco, IRS, Navy, Lowes, Staples, Genzyme, Boeing, Intel, Molina Healthcare and many others.

itSM Solutions is also the founder of NISTCSF.COM a global consortium of academic, government and industry thought leaders working together to create Cybersecurity training programs that help organizations operationalize, maintain and improve the frameworks and methods created by the National Institute of Standards & Technologies (NIST), the National Institute of Cybersecurity Education (NICE) and other internationally recognized institutes and standards organizations. The consortium's goal is to provide academia and enterprises with an affordable and scalable way to train, skill and certify today's Cybersecurity workforce.

About the Authors

David Nichols is the President and CEO of itSM Solutions LLC, an ITSM consulting and training company. He has over 40 years experience in Information Technology. As an early adopter of the IT Service Management processes as described in the IT Infrastructure Library (ITIL), he has utilized his hardware and software engineering background as a foundation for implementing sweeping changes in how IT Services are delivered at several fortune 100 companies in the US. Working closely with the executive management teams, David has helped the strategic goals of the IT organization with those of the company and develop a more effective IT Strategy. Strategies that are customer focused, process-oriented and cost/performance optimized, and help business and IT organization establish the value of IT Services. David holds ITSM Service Manager certification.

Rick Lemieux is a managing partner and the Vice President of Business Development. He is responsible for overseeing the company's Sales, Marketing & Business Development programs. Rick has been involved in selling IT solutions for the past 30 years. Prior to itSM, Rick, an early proponent of ITSM and ITIL, led the Sales and Business Development teams at software companies focused on automating the best practices guidance outlined in ITIL. Rick holds a Foundation Certificate in IT Service Management and was recently identified as one of the top 5 IT Entrepreneurs in the State of Rhode Island by the TECH 10 awards.
