Information

NIST Cybersecurity Professional (NCSP) Training Program

- itSM's NIST Cybersecurity Professional (NCSP) is the industry's first NIST Cybersecurity Framework training program designed specifically to teach an enterprise workforce how to identify, protect, detect, respond and recover from cyber-attacks
- The curriculum, available in print, digital book and self-paced video is designed to fit seamlessly into any existing academic or learning & development environment.
- The curriculum is built around five programs:
 - NIST Cybersecurity Framework Awareness Training
 - NIST Cybersecurity Professional Foundation Certification Training
 - NIST Cybersecurity Professional Practitioner Certification Training
 - NIST Cybersecurity Professional Boot Camp (F+P) Certification Training
 - NIST Cybersecurity Professional BOOT CAMP PLUS Certification Training Library

NCSP Awareness Training

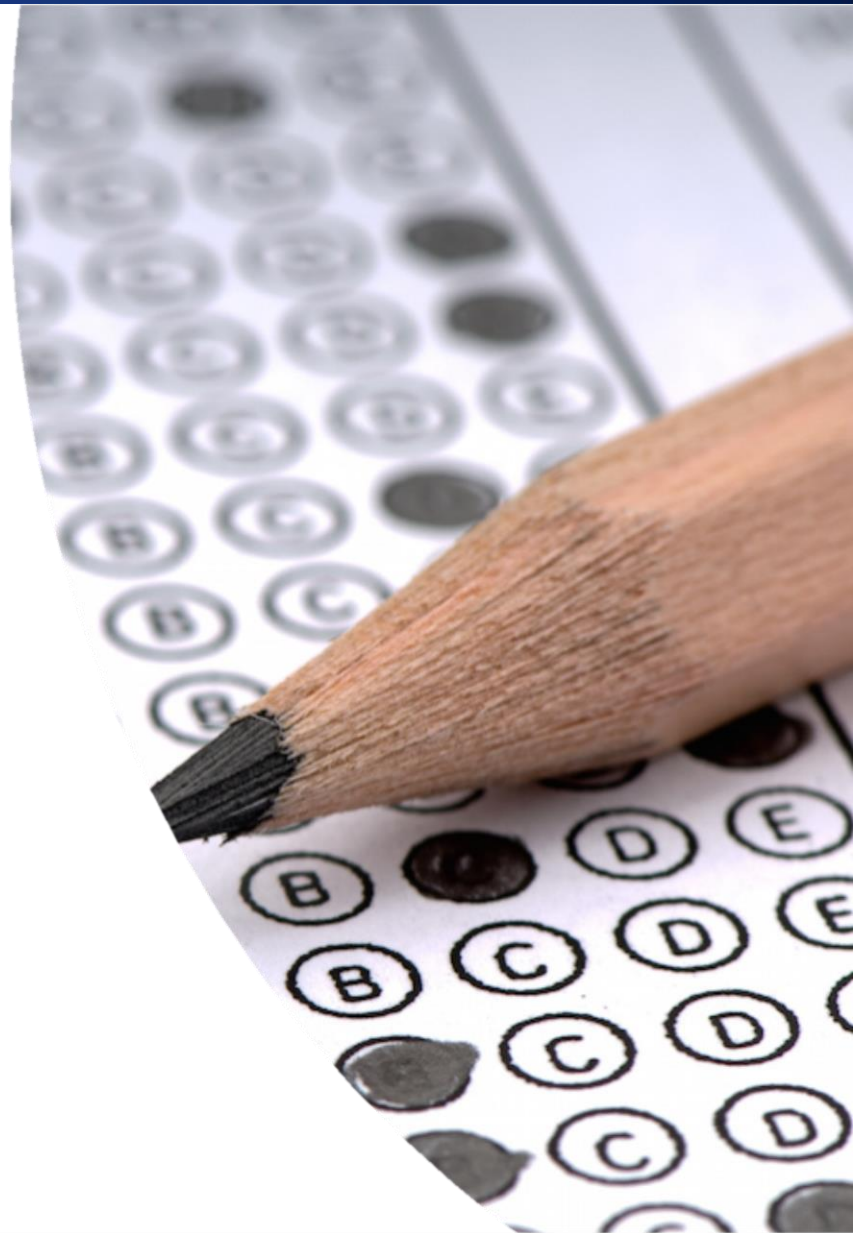

- The NIST Cybersecurity Framework Awareness training course introduces students to the basic concepts associated with Digital Transformation, the NIST Cybersecurity Framework and Cyber Risk Management.
 - **Location of Training:** Self-Paced
 - **Means of Instruction:** Classroom, V-Classroom, Video
 - **Number of Classroom Hours:** 1 Hour
 - **Credentials Attained:** Certificate of Completion, 1 PDU & 1 CEU

NCSP Foundation Certification

- The NCSP Foundation training course outlines current cybersecurity challenges and explains how organizations who implement a NIST-CSF program can mitigate these challenges.
 - **Location of Training:** Onsite, Online or Self-Paced
 - **Means of Instruction:** Classroom, V-Classroom, Video
 - **Number of Classroom Hours: 8** (1 Day)
 - **Exam:** Exam delivered at end of class or later using a Voucher
 - **Credentials Attained:** Certification, 8 PDU's & 8 CEU's

NCSP Foundation Exam

- The exam includes Blooms level 1 & 2 questions
- 40 questions
- 60 minute exam
- Pass Mark – 60% (24 marks)
- Closed book
- Paper based & online availability (including ProctorU)

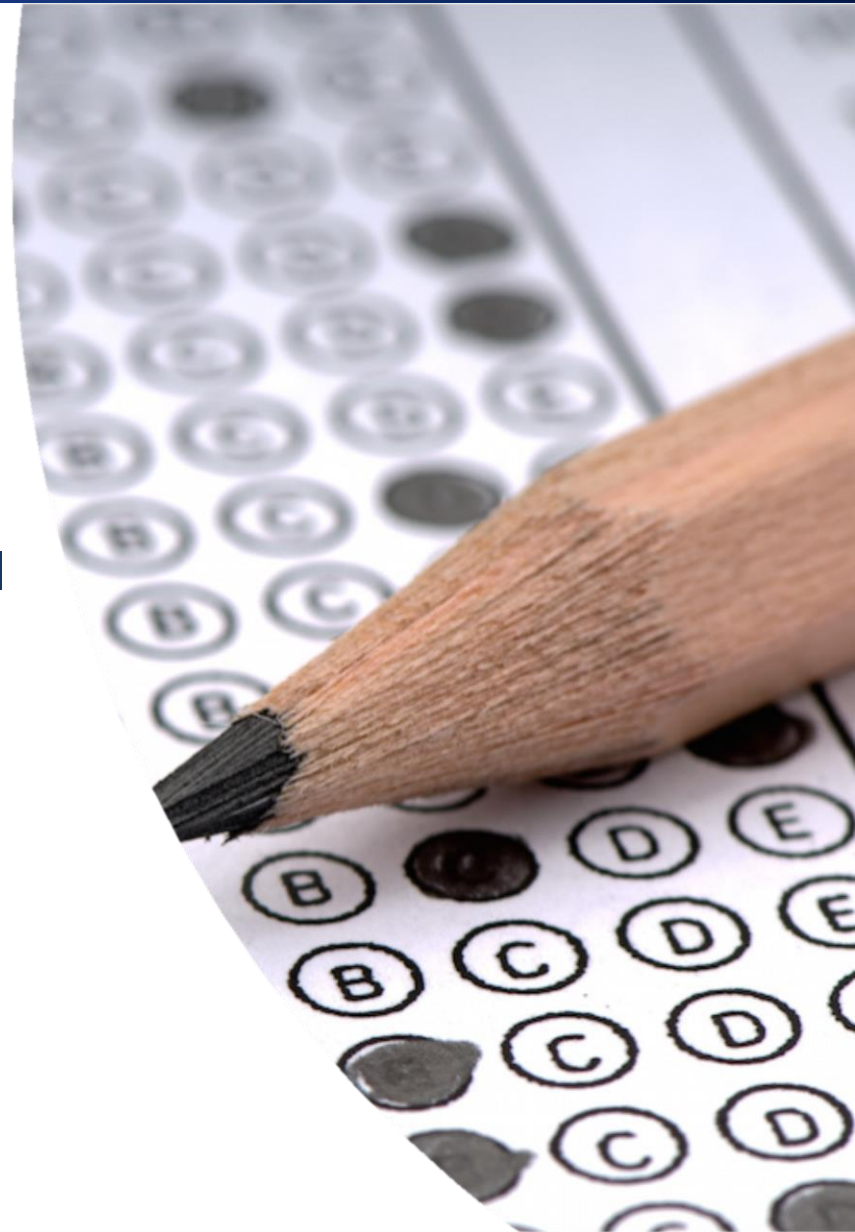

NCSP Practitioner Certification

- The NCSP Practitioner training course teaches in detail how to engineer, operate and improve the technical and business function of an NIST-CSF program.
 - **Location of Training:** Onsite, Online or Self-Paced
 - **Means of Instruction:** Classroom, V-Classroom, Video
 - **Number of Classroom Hours:** 30 (4 days)
 - **Exam:** Exam delivered at end of class or later using a Voucher
 - **Credentials Attained:** Certification, 30 PDU's, 30 CEU's

NCSP Practitioner Exam

- The exam includes Blooms level 1 to 4 questions
- 65 multiple choice questions - approximately 60% will be Blooms Level 1 & 2 and the remaining 40% will be Blooms Level 3 & 4.
- 120 minute exam
- Pass Mark – 60% (39 marks)
- Closed book
- Paper based & online availability (including ProctorU)

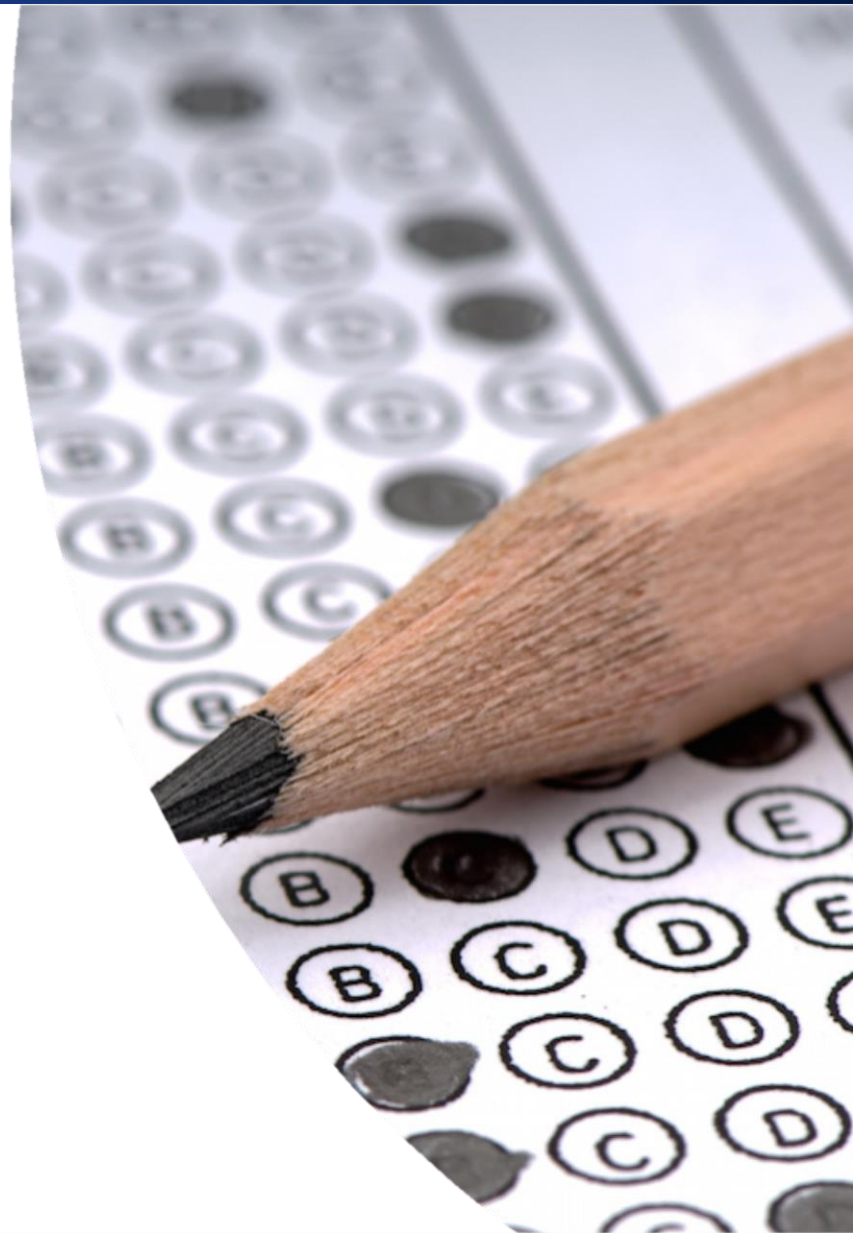

NCSP Boot Camp Certification

- This combined NCSP program (Foundation + Practitioner) outlines current cybersecurity challenges plus teaches in detail how to engineer, operate and improve the technical and business functions of a NIST-CSF program.
 - **Location of Training:** Onsite, Online or Self-Paced
 - **Means of Instruction:** Classroom, V-Classroom, Video
 - **Number of Classroom Hours:** 40 (5 days)
 - **Exam:** Single exam delivered at end of class or later using a Voucher
 - **Credentials Attained:** Certification, 40 PDU's, 40 CEU's

NCSP Bootcamp Exam

- The exam includes Blooms level 1 to 4 questions
- 90 multiple choice questions - comprised of 25 Blooms Level 1 & 2 and 65 Level 3 & 4 questions
- 150 minute exam
- Pass Mark – 60% (54 marks)
- Closed book
- Paper based & online availability (including ProctorU)

NCSP BOOT CAMP PLUS Certification Library

- This 12, 24, 36 or 48 month subscription program provides students access to the NIST Cybersecurity Professional Boot Camp program PLUS over 200 additional accredited training programs that will help students prepare for the most sought after certifications in Information Technology (IT), Information Security, Technology and Business Skills
- [Click Here](#) to See The NCSP-BC-PLUS Course Catalog
 - **Location of Training:** Anywhere, Anytime
 - **Means of Instruction:** Self-Paced Video
 - **Exams:** Available from Vendors or Exam Bodies
 - **Credentials Attained:** Multiple Certifications, PDUs, CEUs, CPEs, and ITIL® credits
